Senator John McCain
407 W. Congress Street, Suite 103
Tucson, AZ 85701

Dear Senator,

Thank you for your response to my letter of July 4. The fact that you responded was greatly appreciated.

Conversely, in your response you assert that the issues raised were *"in the jurisdiction of the State of Arizona"* and that you were forwarding my letter to Govenor Napolitano.

Unfortunately this is incorrect. The issues raised include federal mail fraud and identity theft, intimidation & retaliation against witnesses/victims involved in proceedings in federal court (US District Court), withholding, secreting, & destroying public records to be used as evidence in federal court, and, purjury and obstruction of justice in federal court.

Furthermore, the State of Arizona (Govenor Napolitano's Office and the Arizona Attorney General) have not only refused to investigate any of these matters, the State of Arizona is assisiting the violators in their continued unlawful acts. Forwarding anything to them would not server justice, instead, they will use it as a means of further obstructing such.

Numerous written requests to Govenor Napolitano and the Arizona AG for investigation and criminal prosection have either been ignored, refused, or they have responded by refusing to provide "legal advice". I have never requested "legal advice". I have repeatedly demanded criminal prosecution. Again, the State of Arizona is **assisiting** and **protecting** the violators in their continued unlawful acts, including those acts that constitute violation of federal laws.

As stated in my previous letter, unless the the US Department Of Justice acts to investage and prosecute those involved, the criminal acts of the violators will continue.

Without your assistance and intervention, those involved will be never be investigated or prosecuted and will continue to subvert our government and obstruct our justice system.

Sincerely,

[redacted]

Scott M. McNair
